

# 14 Street S.W. Reconstruction (Anderson Road to Canyon Meadows Drive)

## Construction Notice

---

Utility work as part of the 14 Street S.W. Reconstruction project is **scheduled to begin early in October 2023**, in preparation for main road construction in 2024. Here's what to expect:

### What construction activities will be taking place in 2023?

Phase one of required Enmax line relocation work is scheduled to begin in early October 2023 (see attached map). This work will take place on both the west and east sides of 14 Street S.W., including:

- Removal and/or replacement of existing overhead power poles and lines (west side)
- Installation of new electrical conduit (east side)

Starting in late October, crews will begin underground utility work, including:

- Installation of stormwater line (east side)
- Completion of underground stormwater pipe connection (west side, within the golf course)

Some tree removals may be required to accommodate underground utility work; these will be completed in adherence to all required regulations.

**Intermittent lane closures on 14 Street S.W. are expected to take place in fall 2023, including a full, three-week closure to install the storm pipe tie-in under the roadway.**

Work will adhere to City of Calgary Noise Bylaw restrictions and all efforts will be made to limit noise impacts to the best of our ability. Crews will also work to keep dust and vibration to a minimum during construction.

Not all noise, dust or vibration will be able to be mitigated and we apologize in advance for any inconvenience this may cause.

### What type of construction will be taking place in 2024?

Roadway reconstruction and other project work is scheduled to begin in early spring 2024. This will include:

- Pavement reconstruction and realignment of existing traffic lanes
- Relocation of intersection/access into the Canyon Meadows Golf Course
- Streetlighting and landscaping
- Addition of a new walking and wheeling connection along the east side of 14 Street S.W. from Canyon Meadows Dr. to Anderson Rd. with a connection along the south side of Anderson Rd. to the existing overpass at Dr. E.P. Scarlett High School.

**A full, two-month closure of 14 Street S.W. will be required in spring/early summer 2024 to accommodate roadway reconstruction.**

The City will also be completing pavement resurfacing work on Elbow Drive S.W., from Anderson Road to Canyon Meadows Drive, in coordination with the 14 Street S.W. Reconstruction project.

This work is scheduled to begin in late summer 2024, once reconstruction of 14 Street S.W. is complete and the roadway is re-opened.

**Will access to the Canyon Meadows Golf and Country Club remain open during construction?**

**Yes** – Access will remain **open** throughout construction, with applicable detours noted on signage in the area.

**What are the construction timelines?**

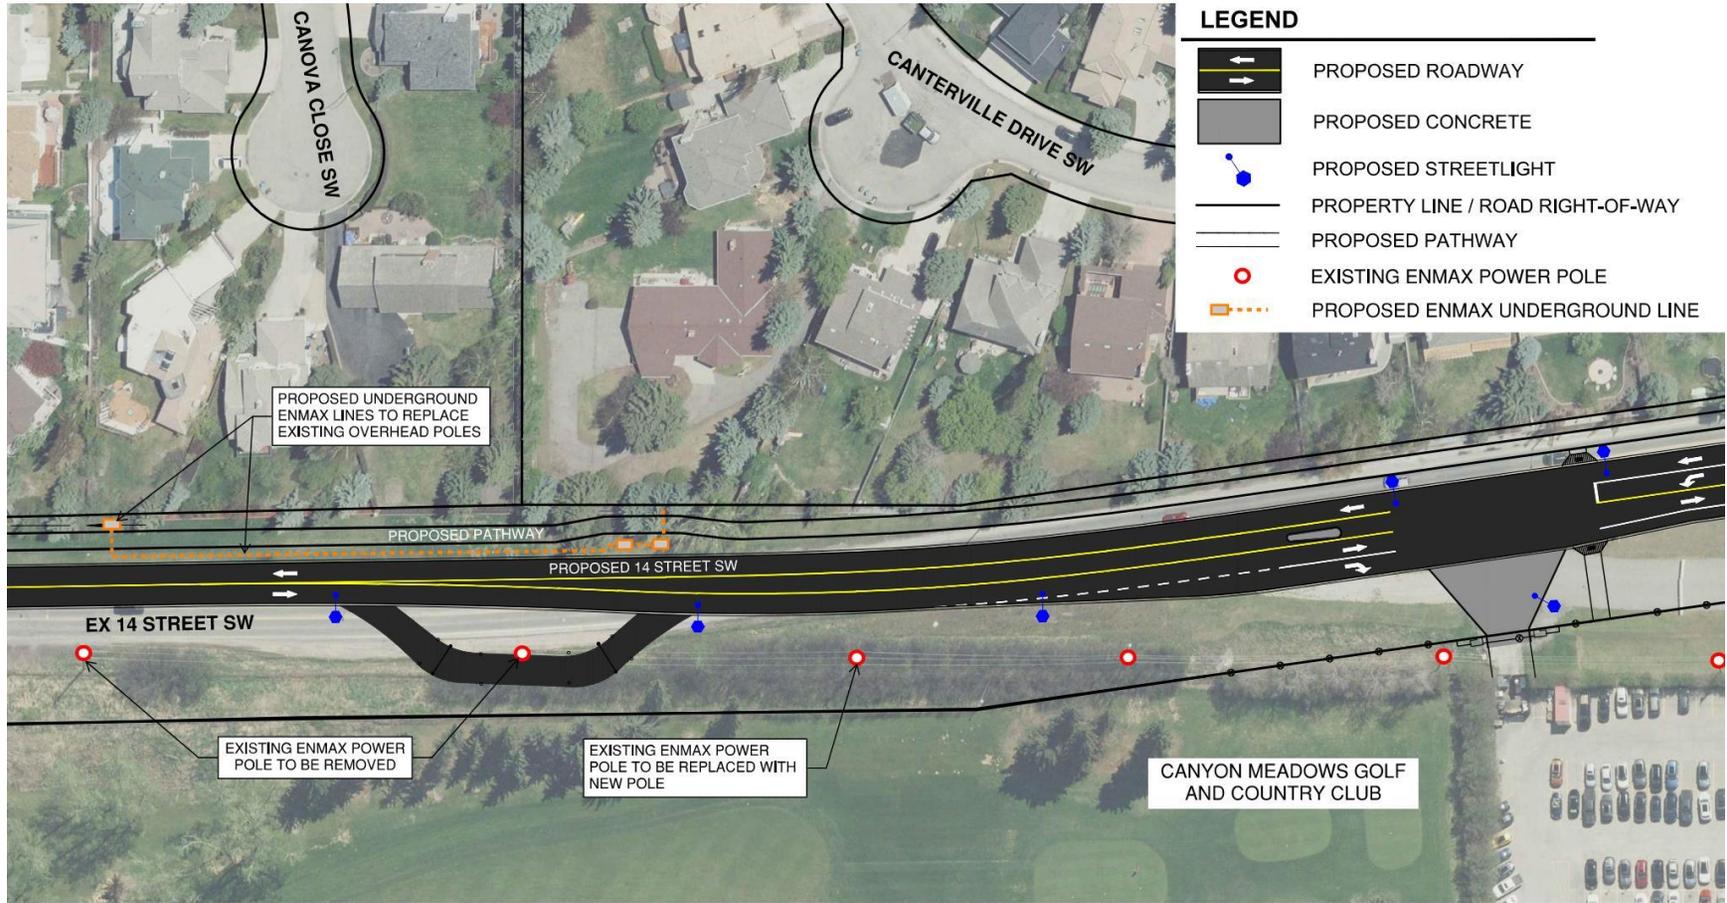

Pre-construction work will begin in early October 2023 and will continue through to the end of fall 2023, weather permitting. Work will resume in early spring 2024, with full project completion scheduled for fall 2024.

**Where can I get more information on upcoming construction and detours?**

Construction signage will be posted near the work zones in the project area. For additional information, or to sign up for email newsletter updates, visit [calgary.ca/14StreetSW](https://calgary.ca/14StreetSW). Information on closures and upcoming project work will be posted on the webpage as it is confirmed.

If you have any questions not answered on the webpage, please reach out to the project team at [14StreetSW@calgary.ca](mailto:14StreetSW@calgary.ca).
